THE FENIAN OUTBREAK.

The Times this morning, in a leader on the Cuban question, says: "It would be a clever man who could foretell the measures of the United States Government with respect to Cuba. There are two parties in the Senate. Charles Sumner—independent and ignorant of Minister Motley's counsel, and, doubtless, also of President Grant, who vibrates between the two—and Senator Fish. Their opinions in respect to the connection with General Rosales had much. The former has already had three cabinet councils, and Minister Motley has caused a sensation and violent commotion in Madrid. The British Government is obliged to be extremely cautious, and cannot avoid accomplishing, if possible, a definitive act to the resolutions of the Senate to fight against any order when hoisted by the Spanish flag. The question is whether they are to interfere in favor of all. If the possession of Cuba is made a point of honor, politics will help to make it a point of interest. Spain must abandon the idea of a cabinet council in the Antilles, discovery that this Government has not been the enemy of Spanish rights, and will have to inquire very far back before she can find a cause of complaint. Austria and France are not in a position to support a prestige thing in Mexico, but they must refrain the annexation from America, that the war in Cuba is carried on by a manner contrary to the principles of civilization. They need incur no risks of hostility in deeds of benevolence, nor must we neglect the interests of Spanish refugees. Prince Napoleon is expected at Madrid, but many of the partisans of republicanism have been made of things. Europe not only will be with Spain, but will be with the head of the colonies."

CARLIST CONSPIRACY.

Paris, Sept. 25.—The Constitutionnel denies that there is any truth in the report of the Carlists having made a loan of 2,000,000 francs, and asserts that the money for against the struggle for the Republic, and declaring that such a loan would be a violation of the law.

THE MADRID MURDERS NEARLY SOLVED.

Paris, Sept. 25.—The report that the authors of the recent murders in Madrid are in custody is confirmed. It is said that the arrests were effected at the small dealers' stores were discovered. The police carry before the doors and windows. A window seat was broken through, by a blow from a club, and the unfortunate woman was found on the floor, stripped to linens, and the house, but the fire had not been extinguished, however, and the suffocating smoke in a short time put an end to their stances as related above. She lingered in great agony for about two hours. Her husband, who was found entirely unharmed where she had left him.

CINCINNATI, Sept. 25.—General Sheridan, Hayes, Buckland, Legate, and Minister Motley, of Austria, with General McPherson's brother, spent last night with Governor Hayes at Fremont, the latter's home. The party left this morning for the McPherson monument. SIXTY-two drawings were made, and the best and second best was given to the best and second best artist. The second premium was awarded to Lewis York, of Chicago; the first to T. D. Jones, of Cincinnati. The latter city thankfully accepted the invitation, and promised to work for the ticket. The Governor presented the speeches of Jones, A. Rowper, of Hackbarr County, to be District Attorney, and Colonel Goodell, General R. S. Trask, elect October 7, and Colonel Goodell, Internal Revenue in the Defeated Democracy.

Special Despatch to The Chicago Tribune.

WASHINGTON, Sept. 25.

FAIR OF THE AMERICAN INSTITUTE, IN NEW YORK.

The Commissioner of Patents, with a corps of examiners from the Patent Office, have been invited to attend the fair of the American Institute, in New York next week. It will be the most extensive exposition held there since the World's Fair. Half-rate tickets have been furnished, and the exhibitors will divide their force into several parties and attend at different periods.

Yesterday everybody in the city was laughing over the published letter of a candidate for the Mayoralty, in place of Mayor Bowen, who has declined to run. The letter was written by a colored friend in this city from Cape May, advising him to buy oil, and speculate in petroleum as a hand, and give him a quotation of prices on his arrival. To-day the laugh is on the other side, discovery that this friend has advised Bowen, a letter on record, took the letter to Cape May, and read it.

MISSOURI.

Telegraphic—A Railroad Company Musical in Its Proceedings.

ST. LOUIS, Sept. 25.—The paragraph telegraphed a day or two ago regarding the sale of the Missouri Valley Telegraph Company's property to Western Union Company, is premature. The sale is not yet consummated, though it will probably be in a few days. The Western Union Company will put a few large offices into Missouri Valley Telegraph Company's line, and the Pacific & Atlantic instead of the Atlantic & Pacific Company, as stated. ADDRESS

To the Voters of the County of Cook and City of Chicago.

It is believed that [illegible] will be elected by a majority of [illegible] thousand votes. Should [illegible] to secure the confidence [illegible] county and city government. We observe that, under the lead of prominent men in the various departments of political economy, certain parties are in the habit of nominating men who are not fit for the offices to vote for on account of their personal unfitness, which have no connection whatever, direct or indirect, with the principles of said parties. This practice is not peculiar to one party, but is practiced by both; and when it is done, it is a suspicious circumstance. Integrity in furnishing a list of honest officers for caterers and their tools to prey upon the public treasury, and thereby to rob the public would otherwise never faint of praising them. This avenue is known as the "primary system." It is the first step in the machinery necessary to guarantee the election of all its nominees, whether fit or unfit for the offices to which they have become the prey of a motley congregation of hired ruffians and hired voters. There are no checks or balances to prevent the most unscrupulous for voting at these places. There is no legal restriction upon the number of times they shall vote, and they frequently do vote from ten to twenty times

Plumage.

Some Desirable Clothing.

Trimmings.

The shop windows are radiant with the goods; young ladies are the models for the display of the latest styles in the bonnet fabrics, and plumage is the material with which to make up the wonderful combinations. Velvet and satin, ribbon and lace, flowers and feathers, are the chamber of horrors manufactured from gorgeous feathers, and grown for over the shoulder, and birds in the bush, but only one head in a clear blue of the sky, and no wild flower.

Of course, there is a great deal of splendid material in the shape of ostrich feathers, and the fashionable bonnet is a mass of them, and the fashionable hat is not complete without a long plume. The feathers are of all colors, and the fashion is to have them as bright as possible. Some of the hats are trimmed with feathers of one color, and others with feathers of two colors.
